

# An *exceptional*\* source of supply for **GREEN COFFEE**

●

\* We say "Exceptional" because of our special facilities for importing out-of-the-ordinary coffees, particularly from the Far East (Ankolas, Mandhelings and Mochas).

Many years of dealing with exporters of these coffees have brought about mutual understanding as to our requirements and their types. As a result we are in a position to offer buyers an unusual selection of milds; coffees that are particularly suited for high grade blends.

*We are also direct importers of Colombians and Brazils.*

*Whatever your coffee needs, we can meet them to your satisfaction.*
